Cosmo Films is committed to providing eco-friendly and sustainable solutions. Focused heavily on research and development, we strive to make innovative products that are sustainable and non-toxic, while still being extremely effective.

## Reflecting on our outreach initiatives during the month of April

Our latest edition of Flexible Talks showcases our incredible Cosmo Synthetic Paper range, which boasts recyclability and moisture resistance. This sustainable and robust option is perfect for multiple applications, including commercial printing, tags, and labels. Cosmo Synthetic Paper empowers business and brand owners across various industries to create paper-based products with numerous benefits, such as impeccable lay flatness and hot foil stamping compatibility.

**Zero deforestation,  
Maximum positive impact  
on environment**

Zero Harm to Trees

Recyclable

Durable for 100 Years

Manufactured with Clean Practises

**Switch to Cosmo Synthetic Paper for quality & durable prints**

# Catching up with the highlights of the April social calendar

Cosmo Films participated in Label Expo Mexico 2023, held in Mexico, and received an overwhelming response from visitors. In April, we celebrated Earth and Health and engaged with our audience through a series of LinkedIn posts, quizzes, and polls.
